

## Knife holder type 22240/22200

ITEC knife holder type 22240/22200

## The Original

The ITEC knife holder system offers the ideal solution for the hygienic and safe storage of knives, sharpening steels and safety gloves and aprons.

Depending on the requirements, different variants are available. Special solutions are also possible. In connection with the various knife holder cleaning machines, ITEC offers individual solutions for cleaning, sterilization and disinfection, depending on the size of the company.

### Innovation in detail

- Safe transport due to knife lock bracket
- V-shaped holder ensures stable fit of knives
- Punctual support of the knife handle guarantees optimum cleaning results between shaft and blade
- For hygienic reasons only punctual ground contact
- Blade protection in signal colour (IFS compliant). Conical design for easy insertion without the need to put on the knife tip
- Hygienic shaping of the sharpening steel holder
- Engraving plate for applying the personnel identification number
- Safety grid spacing according to DIN EN ISO 13857

ITEC knife holder type 22240

### Why the ITEC knife holder!

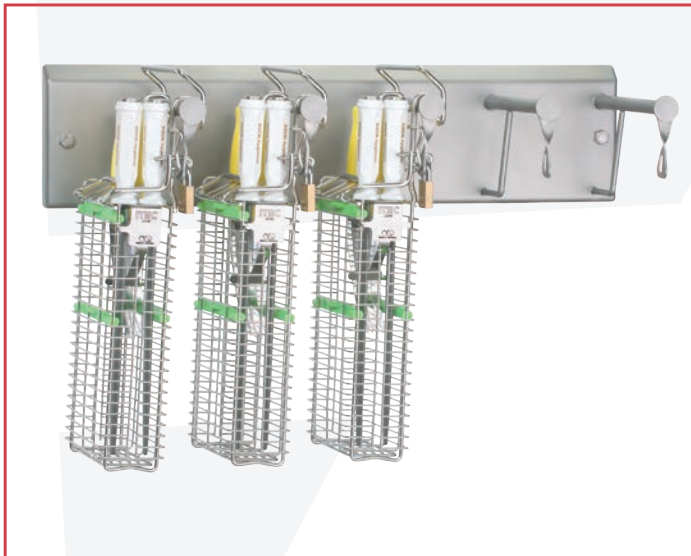

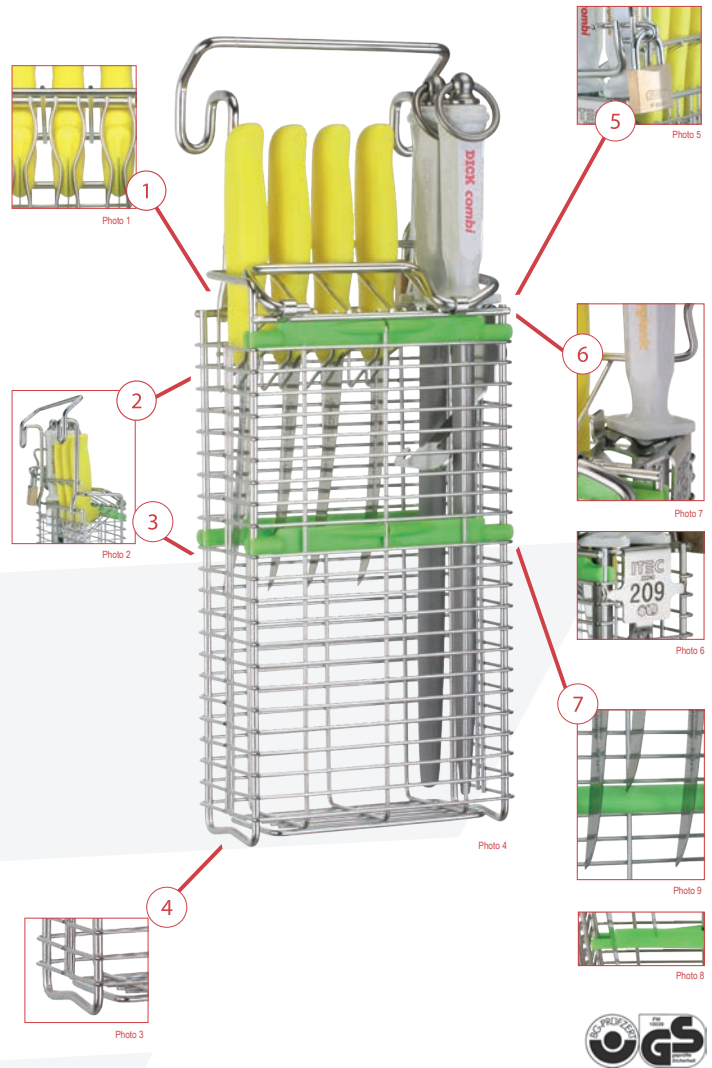

- Hygienic and safe storage of knives, sharpening steels, safety gloves, etc.
- Optimum cleaning results in combination with ITEC cleaning systems

## At a glance

1. V-shaped knife receptacle
2. Punctual support of the knife handle
3. Safety distance according to DIN
4. Punctual ground contact
5. Secure fixation which also allows locking
6. Hygienic sharpening steel holder with engraving plate
7. Blade protectors in signal colour

Wall and table mountings are available in many versions for both knife holders.

Fixation for five knife holders type 22240
