

## SERVICE SOLUTIONS // KDEL ON-SITE SERVICES

# HOW TO MAINTAIN HIGH EFFICIENCY ON YOUR KDEL

**Achieve yield improvement, a smooth and efficient operation with precise positioning of each tray** by having your certified Frontmatec specialists carry out an exact alignment and calibration of the X-rail, Y-pillar and telescopic trolley.

**Maintain high performance** by using a skilled and experienced technician that can perform the alignment and tensioning of the timing belts together with the trolley conveyor belts, both crucial to ensure the feeding conveyor performs at its best.

**Stay prepared for the unexpected** by stocking critical spare parts for daily operation, such gears, motors and an extra chair.
